BLOOD TIES

When the going gets weird, the tough get going.

Sure, we all think our lives are complicated. But consider ex-cop, Vicki Nelson's.

It's not bad enough her career was sidetracked by failing vision... or that the fiery relationship with a handsome cop she tried to abandon won't stay dead... but when her latest love interest turns out to be a 470-year-old-vampire, you really have to give her the prize.

And when a growing part of her caseload begins shifting from fraud investigations and cheating spouses to battling ghosts, ghouls, zombies and demons, that's when even Vicki has to wonder who's really out to get her.

Based on Tanya Huff's "Vicki Nelson" novels – the BLOOD series – BLOOD TIES, one-hour crime drama series, follows the misadventures of Vicki Nelson, a feisty, attractive, 29-year-old ex-cop turned private investigator with a degenerative eye disorder, who seems destined to sit on the sidelines until fate intervenes, turning her life upside down.

After witnessing a terrifying murder, she finds herself on a collision course with a stranger – Henry Fitzroy – who is also investigating the murder. Henry just happens to be a vampire and the bastard son of Henry VIII. This unlikely pair forms more than just a crime-solving partnership that complicates Vicki's long-term love affair with ex-crime partner and boyfriend Detective Mike Celluci... and pretty well everything else in her life.
