SYNOPSIS

As much as it was achievement by millions, inside South Africa and beyond, the end of apartheid and the establishment of electoral democracy in South Africa was the glorious human achievement of one individual, one whose personal story completely contains the suffering and victory of his people: Nelson Mandela.

THE LIFE AND TIMES OF NELSON MANDELA chooses from the many truly extraordinary intimate

epiphanies of Mandela's life: Whether its the silent walk with his mother to the Royal Kraal as a nine-year old...or the fiery end to his first marriage...the ice-cream counter decision to face the death penalty...the moment when he was told of his mother and son's death on Robben Island...the moment PW Botha served him tea...or how he reacted to the girl who broke down at a Toronto school named in his honour.

This captivating biography is replete with the adventure, mishap, fortune and inexhaustible resolve of a truly historic life.
