

WILDLIFE RESCUE

— AFRICA —

WILDLIFE RESCUE

AFRICA

Travelling deep into the heart of Africa, this fascinating one-hour series documents the intense and dramatic experiences of two of the world's most renowned wildlife experts as they risk their lives to save the continent's most dangerous animals.

Each adrenaline-filled, action-packed episode presents a new and potentially deadly conflict that Dr. Douw Grobler and JJ van Altena must resolve, in order to restore the delicate balance of this unique environment. Tracking predators and prey on foot, over land, across water and by air, their adventures will take them where no cars can, through deep jungles, across vast savannah grassland, up steep cliffs and down jaw-dropping ravines to accomplish their dangerous missions.

Throughout the series, their expertise is called upon to tackle extraordinary rescue efforts, including saving local villagers from mighty African elephants, rescuing an endangered wild dog population from a frightening disease, moving thousands of antelope threatened by mass starvation, relocating a pride of bloodthirsty lions, outwitting ruthless rhino poachers and tracking Africa's biggest snakes.

Internationally acclaimed wildlife veterinarian Dr. Douw Grobler is a leader in specialised big game capture and rescue. Commanding and fearless, wrestling a 7,000 pound rhino bull to the ground and then doing delicate surgery on an African Rock Python is all in a day's work for the doctor.

Once his protégé, now his partner in big game capture and rescue, JJ van Altena is a top wildlife specialist and expert in ecology. In a place worlds away from the hustle and bustle of ordinary city life, these two very different men have grown closer than brothers, risking their lives daily - with the scars to prove it, saving not only the animals they love, but often each other.

Offering a first class ticket deep into the heart of Africa, this stunning series is the ultimate way for viewers at home to experience the drama and excitement of animal and human behaviour, as our heroes embark on a dangerous quest to protect the wild heritage of this beautiful continent for generations to come.
