"Amazing story"
WS County Times

"Talan Skeels-Piggins is probably one of the most inspiring characters in motorcycling."
Autoevolution

"Inspiring"
Behind the Wheel

Meet the world's most unique race team.

Meet the world's most unique race team as disabled motorcyclists set out to compete against able-bodied riders on the very machine that disabled them, in this inspiring documentary feature, delivering the ultimate life-affirming message to never give up.

Talan Skeels-Piggins was paralysed in 2003 when a car side-swiped him and he ploughed his motorbike head-on into oncoming traffic.

He was told he had just a 30 percent chance of survival and would never walk again if he lived. Today, Talan and a team of three disabled riders continue to strap themselves to motorbikes and race against able-bodied competitors in one of the most dangerous sports on the planet. Following their remarkable journey as the Talan Racing team embark on their first season together, this visually stunning film explores the courage, desire and belief to go after your dreams - challenging perceptions, inspiring audiences and witnessing motorsports history being made.

A Speechless Films Production.
